USER INSTRUCTIONS

Installation of a fan kit helps circulate combustion air from the Riva appliance. This aids convected heat which results in greater delivery into the room.

OPERATING INSTRUCTIONS RIVA PLUS

The fan is controlled by a 3 way switch on the right hand side of the cassette, *diagram 1*

Position 0 - Off. Fan does not operate

Position I - Automatic. The fan will switch on once the cassette reaches working temperature

Position II - Manual Override. This switches the fan on irrespective of the cassette temperature.

Speed Control - This varies the fan speed when the 3 way switch is in position I or II

This appliance has been approved by HETAS Ltd.

INSTALLATION INSTRUCTIONS

GENERAL

This fan system may be supplied in kit form and installed in accordance with these instructions OR it may have been factory fitted.

PACKING LIST

- Riva Plus Fan Kit

TOOLS REQUIRED

- 10mm A/F Spanner

POWER SUPPLY

A 230v 50 - 60Hz supply is required.

THIS APPLIANCE MUST BE EARTHED

Provision for the power supply should be made before installing the product, with connections made by a qualified electrician via a 3 Amp supply and complying with any local and national regulations and guidelines

- The appliance must be protect by a 3 amp fuse
- The electrical connection must allow for disconnection
- Use heat resistant cable

If the electricity supply cable is damaged do not use the appliance until it has been replaced. For safety reasons the replacement should be carried out by a Stovax servicing agent or a similarly competent electrician.
