FCC and Safety Information

CAUTION:

This unit employs a laser. Due to possible eye injury, only qualified service personnel should remove the cover or attempt to service this device. Use of controls or adjustments or performance of procedures other than those specified herein may result in hazardous radiation exposure.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

– Reorient or relocate the receiving antenna.
– Increase the separation between the equipment and receiver.
– Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
– Consult the dealer or an experienced radio/TV technician for help.

This product incorporates copyright protection technology that is protected by method claims of certain U.S. patents and other intellectual property rights owned by Macrovision Corporation and other rights owners. Use of this copyright protection technology must be authorized by Macrovision Corporation, and is intended for home and other limited viewing uses only unless otherwise authorized by Macrovision Corporation. Reverse engineering or disassembly is prohibited.

Since it is usual for DVD movies to be released at different times in different regions of the world, all players have region codes and disc can have an optional region code. If you load a disc of a different region code to your player, you will see the region code notice on the screen. The disc will not play, and should be unloaded.

(Possible region codes:)

There are 6 regions (also called “locals”). Each DVD player and disc will be played in one region ONLY.
1: Canada, U.S., U.S. Territories
2: Japan, Europe, South Africa, Middle East (including Egypt)
3: Southeast Asia, East Asia (including Hong Kong)
4: Australia, New Zealand, Pacific Islands, Central America, Mexico, South America, Caribbean
5: Former Soviet Union, Indian Subcontinent, Africa (also North Korea, Mongolia)
6: China

Never make or change connections with the power switched on.

CAUTION VISIBLE AND INVISIBLE LASER RADIATION WHEN OPEN AVOID EXPOSURE TO BEAM
(WARNING LOCATION: INSIDE ON LASER COVERSHIELD)

Important Safety Instructions

1. Read these instructions.
2. Keep these instructions.
3. Heed all warnings.
4. Follow all instructions.
5. Do not use this unit near water.
6. Clean only with a damp cloth.
7. Do not block any of the ventilation openings. Install in accordance with the manufacturer's instructions.
8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
9. Do not defeat the safety purpose of the polarized-type plug. A polarized plug has two blades with one wider than the other. The wide blade is provided for your safety. When the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
10. Protect the power cord from being walked on or pinched particularly at plug, convenience receptacles, and the point where it exits the unit.
11. Only use attachments/accessories specified by the manufacturer.
12. Unplug the unit during lighting storms or when unused for long periods of time.
13. Refer all servicing to qualified service personnel. Servicing is required when the unit has been damaged in any way; such as when the power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the unit, the unit has been exposed to rain or moisture, does not operate normally, or has been dropped.

Outdoor use or wet location applications:
An apparatus that does not comply with the requirements in Appendix A# (Outdoor Use and Wet Location Apparatus) shall be marked or the instruction manual packed with the word "WARNING" and the following or equivalent: "To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

A Class II APPARATUS shall be permanently marked with the words "DOUBLE INSULATION" or "Double insulated" and "When servicing use only identical replacement parts."

WARNING: To reduce the risk of fire or electric shock, do not expose this unit to rain or moisture. The unit shall not be exposed to dripping or splashing. No objects filled with liquids, such as vases, shall be placed on the unit.

Cautions

Please read these precautions before operating this unit.

■Power cord protection

To avoid unit malfunctions and to protect against electric shock, fire or personal injury, please observe the following.

- Hold the plug firmly when connecting or disconnecting the AC power cord.
- Keep the AC power cord away from heating appliances.
- Never put a heavy object on the AC power cord.
- Do not attempt to repair the AC power cord in any way.

■Placement

Avoid placing the unit in areas of:

- direct sunlight, heating radiators, or closed automobiles
- high temperature over 95°F (over 35°C) or high humidity (over 90%)
- dusty areas as the internal parts may be seriously damaged.

■Storage

When the unit is not being used, turn it off. When left unused for a long period of time, the unit should be unplugged from the power source.

■ Do not place foreign objects inside unit

- Touching internal parts of this unit is dangerous and may cause serious damage to the unit. Do not attempt to disassemble the unit.
- Do not put any foreign object on the disc tray.

■Keep away from water and magnets

- Keep the unit away from flower vases, tubs, sinks, etc. If liquids are spilled into the unit, serious damage could occur.
- Never bring a magnet or magnetized object near the unit.

■Condensation

Moisture may form on the lens in the following conditions:

- immediately after a heater has been turned on
- in a steamy or very humid room
- when the unit is suddenly moved from a cold environment to a warm one

If moisture forms inside this unit, it may not operate properly. In this case, turn on the power and wait about one hour for the moisture to evaporate.

■If there is noise interference on the TV while a broadcast is being received

Depending on the reception condition of the TV, interference may appear on the TV monitor while you watch a TV broadcast and the unit is left on. This is not a malfunction of the unit or the TV. To watch a TV broadcast, turn off the unit.

DVD Disc Format and TV Format

DVD discs have the material recorded in the PAL and NTSC systems. Refer to the table below to select the correct disc type for the type of connected TV.

■ Connecting to the multi-system TV

DISC	TV MONITOR
PAL	Played in the PAL system.
NTSC	Played in the NTSC system.

■ Connecting to the NTSC TV

DISC	TV MONITOR
PAL	No clear images are shown on the screen.
NTSC	Played in the NTSC system.

■ Connecting to the PAL TV

DISC	TV MONITOR
PAL	Played in the PAL system.
NTSC	No clear images are shown on the screen.

1-1 DVD Playback

Basic Playback

1 **Press** POWER **on.**

2 **Press** OPEN **to open the disc cover.**

3 **Hold the edge of the disc to put it in the center with the printed side up.**

Hold the disc without touching its surfaces, position it with the printed title side facing up, align it with the guides, and place it in its proper position.

4 **Close the disc cover.**

- DVD player starts playback automatically if the disc does not have any menus recorded on it.
- If the disc has one or more titles recorded on it, a menu screen will appear on the screen.

NOTE: Proceed with steps 5 and 6 when a menu is available on the disc.

5 **Press ◀ / ▶ / ▲ / ▼ or the number button(s) to select the preferred title.**

NOTE: To select a title, input the number, i.e. 1 for chapter 1, 10 for chapter 10, and etc.

6 **Press** PLAY/SEL.

The player now starts playback of the selected title.

Stopping Playback and Returning to The Menu Screen

Press MENU. This portable DVD player stops playback, and then displays the menu screen.

After operation

When this portable DVD player is not in use, remove the disc and press POWER to turn off the player and close the display panel.

NOTE:

- The disc will continue to spinwhile the menu is displayed even after the player has finished playing a particular disc. When no further selections are to be played, be sure to press the STOP button to clear the menu screen.
- If the disc is placed in upside down (and it is a single sided disc), the player's display will appear "NO DISC".
- When " " appears when pressing a function button, it means that the corresponding operation is currently not available.

Stopping Playback

Press STOP**.**

1-1 DVD Playback-continued

Fast Forward and Fast Reverse)

By the remote control:

Press ◀◀ F.BWD or F.FWD ▶▶ during playback.

- Normal playback can be resumed by pressing PLAY/SEL.
- The speed of fast forwarding (▶▶ x2, ▶▶ x4, and etc) or fast reverse (◀◀ x2, ◀◀ x4, and etc.) changes for each press of the F.FWD or F.BWD button.

Skipping Ahead or Back to Chapters

Skipping Ahead

Press NEXT ▶▶| during playback.

Skips to the next chapter each time you press the button.

Skipping Back

Press |◀◀ PREVIOUS during playback.

Pressing the button once will return to the beginning of the currently playing chapter. Pressing the button twice or more will skip to previous chapters.

Still Picture (PAUSE)

Press PAUSE once during playback.

The picture motion is stoppped (paused).

To return to normal playback press PLAY/SEL.

If you set Audio Output to <Digital> from on-screen display, the audio output will be the original sound recording format on discs (for example; Dolby Digital).

WARNING:

- Do not set "AUDIO SETUP" to "Digital" via the on-screen display unless you are connecting (via the DOLBY DIGITAL AUDIO OUT jack) an A/V decoder that has the Dolby Digital (AC-3) decoding function. High volume audio may damage your hearing as well as the speakers.

To return the screen to the SETUP MENU

Select "RETURN" and then press PLAY/SEL.

To finish the setup operation

Press SETUP to exit or select EXIT from SETUP MENU screen.

4-1 Troubleshooting

Before requesting service for the player, check the chart below for a possible cause of the problem you are experiencing. Some simple checks or a minor adjustment on your part may eliminate the problem and restore proper operation.

SYMPTOM (COMMON)	REMEDY
No power.	· Insert the power plug securely into the power outlet. · Check if the ON/OFF button on the right of the player is set to ON position. · Check for power at the AC outlet by plugging in another appliance for a test.
The player does not start playback when PLAY is pressed.	· Condensation due high humidity has formed: wait about 1 to 2 hours to allow the player to dry out. · This player cannot play discs other than DVDs, audio CDs and CDR with recorded JPEG files. · Check if the disc is defective by trying another disc. · Check the region (local) code.
The player starts playback but stops immediately.	· The disc may be dirty and may require cleaning. · Ensure that the disc is loaded with the label side up.
No picture.	· Ensure that the equipment is connected properly. · Ensure that the input setting for the TV is "Video". · Check if external equipment is on. · Select the same channel and source on the TV as on the player. · Check if the LCD is on.
No sound.	· Ensure that the equipment is connected properly. · If using a HiFi amplifier, try another sound source. · Check the Audio Output Setting menu to make sure that Analog Output is selected. · Check the Volume Adjustment.
Distorted sound.	· Ensure that the input settings for the TV and stereo system are proper. · No sound is heard during still picture (pause).
No audio at Digital Output.	· Check the digital connections. · Check the settings menu to make sure that the digital output is set to on. · Check if the audio format of the selected audio language matches your receiver capabilities.
Distorted picture.	· Check the disc for fingerprints and clean it with a soft cloth, wiping it from center to edge. · Sometimes a small amount of picture distortion may appear on multi-layer discs. This is not a malfunction.
Completely distorted picture or no color in picture.	· The disc format is not matching the TV-set used (PAL/NTSC).
Picture is distorted during rapid advance or rapid reverse.	· The picture will be somewhat distorted at times: this is normal.
No rapid advance (or rapid reverse) playback.	· Some discs may have sections which prohibit rapid advance (or rapid reverse).
No 4:3 (16:9) picture.	· Choose the correct setup "TV DISPLAY" item which matches the TV set used.
Picture is distorted during rapid advance or rapid reverse.	· The picture will be somewhat distorted at times: this is normal.
Remote control does not function	· Check the batteries are installed with the correct polarities (+ and –). · The batteries are dicharged: replace them with new ones. · Point the remote control unit at the remote control signal sensor and try again. · Operate the remote control unit at a distance but no more than 7 meters from the remote control signal sensor. · Remove the obstacles between the remote control unit and remote control signal sensor.
No key operation (by the DVD player AC power and/or the remote control) is effective.	· Turn the unit off and then back to on. Alternatively, turn off the unit, disconnect the cord and then re-connect it. (The player may not be operating properly due to lightning, static electricity or some other external factor.)
PLAY does not start playback even when title is selected.	· This may be a result of the parental lock function that has been set. Confirm the "PARENTAL" setup.
Audio soundtrack and/or subtitle language is not the one selected at the initial settings.	· If the audio soundtrack and/or subtitle language does not exist on the disc, the language selected at the initial settings will not be seen/heard.
No subtitles.	· Subtitles appear only with discs that contain them. · Subtitles are not enabled. Press SUBTITLE to display the subtitles.
Alternative audio soundtrack (or subtitle) languages cannot be selected.	· An alternative language can not be selected may result of no more than one language available.
Angle cannot change.	· This function depends on software availability. Even if a disc has a number of angles recorded, these angles may be recorded for specific scenes only.

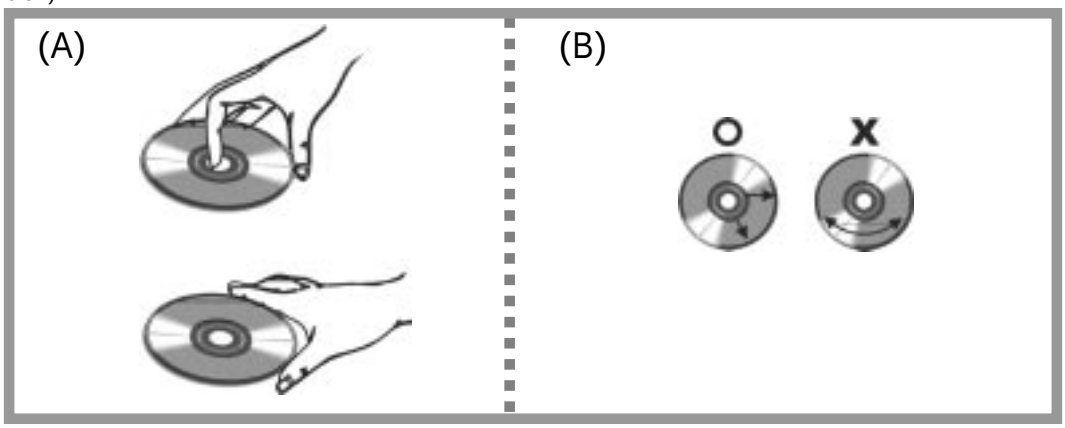
4-2 Disc Handling and Maintenance

Handling Precautions

- Hold the disc by the edges so the surface will not be soiled with fingerprints. (A)
  Fingerprints, dirt and scratches can cause skipping and distortion.
- Do not write on the label side with a ball-point pen or other writing utensils.
- Do not use record cleaning sprays, benzine, thinner, static electricity prevention liquids or any other solvent.
- Be careful not to drop or bend the disc.
- Do not install more than 1 disc on the disc tray.
- Do not try to close the disc cover when the disc is not installed properly.
- Be sure to store the disc in its case when not in use.

If the surface is soiled (B)

Wipe gently with a soft, damp (water only) cloth.
When wiping discs, always move the cloth from the center hole toward the outer edge.
(If you wipe the discs using a circular motion, circular scratches are likely to occur, which will cause picture distortion)



If the disc is brought from a cold to a warm environment, moisture may form on the disc

Wipe moisture off with a soft, dry, lint-free cloth before using the disc.

Improper disc storage

You can damage discs if you store them in the following places:

- Areas exposed to direct sunlight
- Humid or dusty areas
- Areas directly exposed to a heat outlet or heating appliance

Disc which cannot be played with this player

- CD-ROM (Application Program)
- CVD
- CD-G
- DVD with a Region Number other than that shown on the DVD unit's Region Code Label on the rear panel

Maintenance

- Be sure to turn the unit off and disconnect the AC power cord before maintenancing the unit.
- Wipe this unit with a dry soft cloth. If the surfaces are extremely dirty, wipe clean with a cloth which has been dipped in a weak soap-and-water solution and wrung out thoroughly, and then wipe again with a dry cloth.
- Never use alcohol, benzine, thinner, cleaning fluid or other chemicals. And do not use compressed air to remove dust.

4-3 Definition of Terms

Angle

Recorded onto some DVD discs are scenes which have been simultaneously shot from a number of different angles (the same scene is shot from the front, from the left side, from the right side, etc.). With such discs, the ANGLE button can be used to view the scene from different angles.

Chapter Number

These numbers are recorded on DVD discs. A title is subdivided into many sections, each of which is numbered, and specific parts of video presentations can be searched quickly using these numbers.

DVD

These refer to a high-density optical disc on which high-quality pictures and sound have been recorded by means of digital signals. Incorporating a new video compression technology (MPEG II) and high-density recording technology, DVD enables aesthetically pleasing full-motion video to be recorded (for instance, a whole movie can be recorded).

DVD has a structure consisting of two 0.6 mm thin discs which are adhered to each other. Since the thinner the disc, the higher the density at which the information can be recorded, a DVD disc has a greater capacity than a single 1.2 mm thick disc. Since the two thin discs are adhered to each other, there is the potential to achieve double-sided play for even longer play durations.

Subtitles

These are the printed lines appearing at the bottom of the screen which translate or transcribe the dialogue. They are recorded on DVD discs.

Time Digit

This indicates the play time which has elapsed from the start of a disc or a title. It can be used to find a specific scene quickly. (It may not work with some discs.)

Title Number

These numbers are recorded on DVD discs. When a disc contains two or more movies, these movies are numbered as title 1, title 2, etc.

Track Number

These numbers are assigned to the tracks which are recorded on audio CDs. They enable specific tracks to be located quickly.

90 DAY LIMITED WARRANTY

Applies to Audiovox Video Products

AUDIOVOX ELECTRONICS CORP. (the Company) warrants to the original retail purchaser of this product that should this product or any part thereof, under normal use and conditions, be proven defective in material or workmanship within 90 days from the date of original purchase, such defect(s) will be repaired or replaced with reconditioned product (at the Company's option) without charge for parts and repair labor.

To obtain repair or replacement within the terms of this Warranty, the product is to be delivered with proof of warranty coverage (e.g. dated bill of sale), specification of defect(s), transportation prepaid, to the Company at the address shown below.

This Warranty does not extend to the elimination of externally generated static or noise, to correction of antenna problems, to costs incurred for installation, removal or reinstallation of the product, or to damage to tapes, discs, speakers, accessories, or electrical systems.

This Warranty does not apply to any product or part thereof which, in the opinion of the Company, has suffered or been damaged through alteration, improper installation, mishandling, misuse, neglect, accident, or by removal or defacement of the factory serial number/bar code label(s). THE EXTENT OF THE COMPANY'S LIABILITY UNDER THIS WARRANTY IS LIMITED TO THE REPAIR OR REPLACEMENT PROVIDED ABOVE AND, IN NO EVENT, SHALL THE COMPANY'S LIABILITY EXCEED THE PURCHASE PRICE PAID BY PURCHASER FOR THE PRODUCT.

This Warranty is in lieu of all other express warranties or liabilities. ANY IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY, SHALL BE LIMITED TO THE DURATION OF THIS WRITTEN WARRANTY. ANY ACTION FOR BREACH OF ANY WARRANTY HEREUNDER INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY MUST BE BROUGHT WITHIN A PERIOD OF 30 MONTHS FROM DATE OF ORIGINAL PURCHASE. IN NO CASE SHALL THE COMPANY BE LIABLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGES FOR BREACH OF THIS OR ANY OTHER WARRANTY, EXPRESS OR IMPLIED, WHATSOEVER. No person or representative is authorized to assume for the Company any liability other than expressed herein in connection with the sale of this product.

Some states do not allow limitations on how long an implied warranty lasts or the exclusion or limitation of incidental or consequential damage so the above limitations or exclusions may not apply to you. This Warranty gives you specific legal rights and you may also have other rights which vary from state to state.
