

DESCRIPTION

"The Europa" embodies the highest attention to architectural design and detail as well as lighting performance. This luminaire creates a balanced, visually comfortable environment. Perforated metal side panels facilitate a soft "glow", a parabolic louver controls the independent downlight component, and an articulated joiner provides for an elegant continuous arrangement of luminaires. This truly versatile direct/indirect luminaire is designed to provide three distinct lighting distributions...Indirect, Direct, and Direct/Indirect...by the mere separate switching of the single lamp direct component and the two lamp indirect component.

SPECIFICATION FEATURES

A ... Construction

20-gauge steel housing with staggered round hole pattern backed by white acrylic diffuser. Nominal 3', 4', 6' or 8' illuminated sections.

End Plates

Die-formed aluminum.

B ... Shielding

Parabolic, Semi-Specular Aluminum.

C ... Electrical

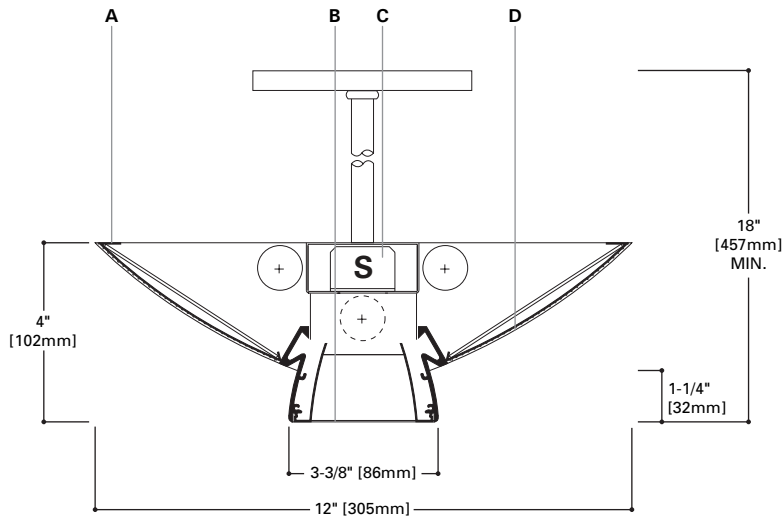

120, 277, 347 or Universal Voltage electronic ballast. Fixtures and electrical components certified to UL and CUL standards.

D ... Finish

Durable, low gloss, white, powder coated acrylic finish.

Mounting

Pendant: Single stem (standard); single cable. Canopy: 5" diameter cover (standard).

S = Slim Line Ballast only.
