# IMPORTANT SAFEGUARDS

When using an electrical appliance, basic safety precautions should always be followed, including the following:

1. **READ ALL INSTRUCTIONS BEFORE USING.**
2. To protect against the risk of electrical shock, do not put motor base of blender in water or other liquid.
3. Close supervision is necessary when any appliance is used by or near children.
4. Unplug from outlet when not in use, before putting on or taking off parts, and before cleaning or removing contents from blender jar. **Never put hands into the blender jar or container, or handle the blades with appliance plugged in.**
5. Avoid contact with moving parts.
6. Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or is dropped or damaged in any manner. Return appliance to nearest Cuisinart service facility for examination, repair, and/or mechanical or electrical adjustment.
7. The use of attachments, including canning or ordinary jars, not recommended or sold by Cuisinart may cause fire, electrical shock, or risk of injury to persons.
8. Do not use outdoors.
9. Do not let cord hang over edge of counter or table or touch hot surfaces.
10. **Keep hands and utensils out of jar while blending, to reduce the risk of severe injury to persons or damage to blender itself.** A rubber or plastic spatula may be used but must be used only when the blender is turned OFF.
11. When blender is in ON mode, and LED lights are flashing or glowing, do not touch cutting assembly, interfere with blade movement, or remove blender jar cover. Accidentally touching a speed button may activate the blender.
12. **BLADES ARE SHARP. HANDLE CAREFULLY.**
13. To reduce the risk of injury, never place cutting assembly on base unless the blender jar is properly attached.

14. Always operate blender with the cover in place.
15. Never leave your blender unattended while running.
16. When blending HOT liquids, remove measured pour lid (center piece of cover) to allow steam to escape.
17. Twist on locking ring firmly. Injury can result if moving blades accidentally become exposed.
18. Do not use an extension cord with this unit. Doing so may result in fire, electrical shock, or personal injury.  
**Regarding your cord set:** A longer cord has been provided so that you will have flexibility in positioning your Cuisinart® SmartPower™ Blender near an electrical outlet. Exercise care when using the longer cord, to avoid entangling or tripping over the cord. The longer cord should be arranged so that it will not drape over the counter or tabletop, where it can be pulled on by children or tripped over. Excess cord should be stored in the cord storage area at the back of the blender base to avoid injury caused by the longer cord.
19. Wash the blender jar, cutting assembly, locking ring, and cover before first use.
20. **WARNING: TO REDUCE THE RISK OF ELECTRICAL SHOCK OR FIRE, DO NOT REMOVE THE BASE PANEL. NO USER SERVICEABLE PARTS ARE INSIDE. REPAIR SHOULD BE DONE ONLY BY AUTHORIZED PERSONNEL.**

## SAVE THESE INSTRUCTIONS FOR HOUSEHOLD USE ONLY

### NOTICE:

This appliance has a polarized plug (one prong is wider than the other). To reduce the risk of electric shock, this plug will fit into a polarized outlet only one way. If the plug does not fit fully into the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Do not modify the plug in any way.

## USE AND CARE

### ASSEMBLY

To use your Cuisinart® SmartPower™ Electronic Blender, begin by assembling the blender jar.

1. Turn the blender jar (a) upside down, and place it flat on a sturdy surface.
2. Position the rubber gasket (b) on the round opening on the bottom of the blender jar.
3. Turn the cutting assembly (c) upside down, and place the blade end in the blender jar opening.

**Note: Blades are sharp... handle carefully.**

## OPERATION

1. Place the motor base of your Cuisinart® SmartPower™ Electronic Blender onto a flat, sturdy surface. It is important that the surface be clean and dry. Assemble the blender by following the assembly instructions. Once the jar is assembled and is in position on the motor base, plug the Cuisinart® SmartPower™ Electronic Blender into an electrical outlet.
2. Add all necessary ingredients to the blender jar, and replace the cover. You may add more ingredients by lifting the

measured pour lid and dropping ingredients through the fill area. Replace the measured pour lid after adding ingredients. **Do not place hands into blender jar with blender plugged in.**

**Note:** Add liquid ingredients first, then follow with solid ingredients. This will provide more consistent blending and prevent unnecessary stress on the motor.

**Note:** To remove blender jar cover, lift edge of cover upwards. Lifting measured pour lid will not remove cover.

- 3. TO START BLENDING:** press the "On" button. The red "On" LED light will flash, indicating that the blender is turned on but no speed has been selected.
- 4. PRESS THE DESIRED BLENDING SPEED:** both the "On" indicator light and the activated speed indicator light will glow. The blender will now be functioning at the desired speed. It is possible to switch speeds without pressing the "Off" button, by simply pushing the next desired speed button.

- 5. TO STOP THE BLENDING PROCESS:** re-press the activated speed button. The blending process will stop. The red "On" indicator light will continue to flash to let you know that the blender is still on and can be reactivated by pushing the desired speed button. The blender can be completely deactivated and stopped at any speed by pushing the "Off" button. You will need to press the "On" button again to continue blending.
- 6. PULSE MODE:** while the blender is turned on, you can create a burst of power for quick, efficient blending, by activating the pulse function. To do so, first push the "Pulse" button, which will cause the pulse indicator light to flash. Next, push and

release the desired speed button. Repeat as desired. You determine the duration of each pulse. While pulsing, all indicator lights (the on, the pulse, and the desired speed) will glow. The pulse function can be used to break apart larger pieces of food or to control the texture of food when chopping. The pulse function is also effective in starting the blending process when you do not want continuous power, or when processing items which do not require an extended amount of blending.

7. **TO CRUSH ICE:** the SmartPower™ Electronic Blender motor is strong enough to crush ice without liquid at any speed; however, for your convenience, we have preset the best speed for ice crushing. To give you greater control, the ice crush function automatically operates as a pulse function. To crush ice, place ice cubes in the blender jar, and place the cover and the measured pour lid on the blender jar. Press the “On” button. Press the “Ice Crush” button in short pulses until ice is crushed to desired consistency. See the "Recipe Tips" section on page 7 for more details.
8. **TO DISLUDGE FOOD:** use a rubber or plastic spatula to help remove food lodged around the cutting assembly. **DO NOT USE SPATULA UNTIL YOU HAVE TURNED THE BLENDER OFF.** Replace the cover and measured pour lid and continue blending, if necessary. Make sure spatula is not inside the blender jar before blending.
9. **WHEN FINISHED BLENDING:** press the “Off” button and unplug the blender from the electrical outlet. Never remove the blender jar from the motor base until the blender is off. Do not twist locking ring from blender jar when removing jar from motor base. Simply lift blender jar from motor base. **Do not place hands into blender jar with blender plugged in.**

## CLEANING AND MAINTENANCE

Always unplug your Cuisinart® SmartPower™ Electronic Blender from the electrical outlet before cleaning. The blender is made of corrosion-resistant parts which are easy to clean. Before first use and after every use, clean each part thoroughly. Periodically check all parts before reassembly. If any part is damaged or blender jar is chipped or cracked, **DO NOT USE BLENDER.**

Remove the blender jar from the motor base by lifting straight up and away. Twist off the locking ring by turning counterclockwise. Remove the cutting assembly and rubber gasket. Wash in warm soapy water, rinse, and dry thoroughly.

Place the locking ring in the upper rack of the dishwasher or wash in warm water.

**CAUTION:** Handle the cutting assembly carefully. It is SHARP and may cause injury. Do not attempt to remove blades from cutting assembly.

Remove the blender jar cover and the measured pour lid. Wash in warm, soapy water; rinse and dry thoroughly, or place in upper rack of dishwasher. The blender jar must be washed in warm soapy water and rinsed and dried thoroughly. The blender jar can also be placed upside down in dishwasher.

Finally, wipe the motor base clean with a damp cloth to remove any residue, and dry thoroughly. Never submerge the motor base in water or other liquid, or place in a dishwasher.

**Tip:** You may wish to clean your blender cutting assembly as follows: Squirt a small amount of dishwashing liquid into assembled blender jar and fill halfway with warm water. Run on STIR for 15 seconds. Repeat, using clean tap water. Empty blender jar and carefully disassemble parts. Wash cutting assembly, gasket and locking ring in warm, soapy water. Rinse and dry all parts thoroughly.

## DOs and DON'Ts WHEN USING YOUR BLENDER

### Do:

- Make sure the electrical outlet is rated at the same voltage as that stated on the bottom of the blender motor base.
- Always use the blender on a clean, sturdy and dry surface.
- **Always add liquid ingredients to the blender jar first, then add remaining ingredients. This will ensure that ingredients are uniformly mixed.**
- Cut most foods into cubes approximately 1/2 inch (1.3 cm) to 1 inch (2.5 cm) to achieve a more uniform result. Cut all cheeses into pieces no larger than 1/2 inch (1.3 cm).
- Use the measured pour lid to measure liquid ingredients such as alcohol. Replace measured pour lid after ingredients have been added.
- Use a rubber or plastic spatula as needed, only when the blender is turned off. Never use metal utensils, as damage may occur to the blender jar or cutting assembly.
- Place cover on firmly. Always operate the blender with the cover on.
- Make sure locking ring is tightly attached to blender jar.
- Always remove locking ring, cutting assembly, and rubber gasket before cleaning.
- When scraping the blender jar with a spatula, remove the food from the sides of the blender jar and place food in the center of the blender jar, over the cutting assembly.
- When chopping fresh herbs, garlic, onion, zest, bread crumbs, nuts, spices, etc, make sure the blender jar and cutting assembly are completely dry.
- If food tends to stick to the sides of the blender jar when blending, pulse in short bursts.
- Pulses should be short bursts. Space the pulses so the blades stop rotating between pulses.

### Don't:

- Don't store food or liquids in your blender jar.
- Don't place cutting assembly and locking ring onto motor base without the blender jar attached.
- Blender will not mash potatoes, knead heavy dough, or beat egg whites.
- Don't remove blender jar while unit is on. Keep the blender jar cover on the blender jar while blending.
- Don't twist locking ring from blender jar when removing blender jar from motor base. Simply lift blender jar from motor base.
- Don't overprocess foods. Blender will achieve most desired results in seconds, not minutes.
- Don't overload blender. If the motor stalls, turn the blender off immediately, unplug the unit, and remove a portion of the food, then continue.
- Don't use any utensil inside the blender jar while the motor is on.
- Don't use any container or accessories not recommended by Cuisinart. Doing so may result in injury.
- Don't place hands inside the blender jar when blender is plugged in.
- Don't add boiling liquids or frozen foods (except ice cubes or 1/2 inch pieces of frozen fruit) to glass blender jar. Boiling liquids should cool for 5 minutes before being placed in blender jar.

## RECIPE TIPS

The simple recipes that follow include some old Cuisinart favorites as well as some creative combinations that are sure to please your friends and family. Thanks to the superior ice crushing power of the SmartPower™ Electronic Blender, you'll also be able to make delicious frozen drinks.

- **Chopping Nuts:** Pulse 1/2 cup of nuts (shells removed) on chop 4-5 times. Turn blender off; scrape blender jar with spatula. Turn blender on and pulse on chop 2-3 times. Turn blender off. Pulse fewer times for more coarsely chopped results. For best results, process no more than 1 cup at a time.
- **Bread, Cookie or Cracker Crumbs:** For best results, use day-old bread (drier bread works best). Break bread slices into 1/2 inch pieces, and process no more than 1 cup of pieces at a time on mix for 5-10 seconds. Crackers and cookies should also be broken into 1/2 inch pieces; process 1 cup at a time on mix for 10-15 seconds. Turn blender off.
- **Crushing Ice:** Add up to 10 large ice cubes to blender jar. Press the "Ice Crush" button, using short bursts, 10 times, or until cubes are the consistency of snow. Turn blender off. Pulse fewer times if coarsely chopped ice is desired.
- **Grating Citrus Zest:** For best results, blender jar and cutting assembly must be clean and dry. Remove zest from fruit in strips (using vegetable peeler). Use no more than 8 strips at a time (zest of one medium lemon). Cut strips in half. Add strips and 1 teaspoon sugar (from recipe) to the blender jar. Blend on Liquefy for 15-20 seconds. Turn blender off.
- **Baby Food:** Combine 1/2 cup cooked vegetables, fruit or meat with 3 tablespoons liquid (water, milk or fruit juice) in the blender jar. Blend on purée for 15-20 seconds. Add more liquid if necessary and process again.
- **Grinding Hard Cheese:** Cut cheese into 1/2 inch pieces. Blend on Liquefy for 30 seconds. Turn blender off. For best results, grind no more than 3 ounces of cheese at a time.
- **Grinding Spices:** For best results, blender jar and cutting assembly must be clean and dry. Add 1/4-1/2 cup of spices/seeds/peppercorns to blender jar. Blend on Liquefy for 30-35 seconds. Turn blender off.
- **Whipping Cream:** Whip 1 cup of cream (whipping or heavy cream) at a time. Blend on Mix, and process for 45-60 seconds or until creamy and smooth. If making sweetened cream, add sugar after 10 seconds. Turn blender off. Makes about 1 cup.
- **Puréeing Sun-Dried Tomatoes:** Rehydrate 1 ounce of tomatoes in 1 cup boiling water. Allow to sit for 10 minutes or until softened. Add tomatoes and water to blender jar. Cover and pulse on Liquefy 5 times; then run continuously on Liquefy for 15-20 seconds. Turn blender off. Drain in fine strainer if desired. Makes about 1/2 cup of puréed tomatoes.

## CLASSIC MAYONNAISE WITH COOKED EGGS

Makes 1 cup

- 1 large egg**
- 1 large egg yolk**
- 1/2 teaspoon sugar**
- 1/2 teaspoon flour**
- 1 tablespoon white wine vinegar**
- 1-1/4 teaspoons dry mustard**
- 1/2 teaspoon salt**
- 1/4 teaspoon freshly ground white pepper**
- 2/3 cup (6 ounces, 175 ml) vegetable oil**

Have ready a pie plate filled with ice cubes and cold water. Place the whole egg, egg yolk, sugar and flour in the blender jar. Place cover on blender jar and press "On" button. Process on stir until combined, about 5 seconds. Transfer to a 7-inch nonstick skillet. Wash the blender jar, blade and lid with hot water and soap; dry.

Over medium heat, using a heat-proof scraper, stir the egg mixture until it thickens to the consistency of a thin custard, about 1 to 1-1/2 minutes. Stir for 1/2 minute longer, then remove the pan from the heat and place it in the prepared ice water bath, stirring the egg mixture until it is cool.

Add the cooled egg mixture to the blender jar along with the vinegar, dry mustard, salt, and pepper. Process on stir to blend, about 15 seconds. With the machine running on stir, add the 2/3 cup of the oil in a very slow, steady stream, taking about 2 minutes. Hold the measured pour lid over the opening while adding the oil to prevent splattering. The mayonnaise will thicken gradually. Stop processing once all the oil has been added and the mixture is emulsified. Chill for one hour or longer before serving, for a thicker mayonnaise. Store in an airtight container in the refrigerator for up to 5 days.

Variation: Cholesterol-Free Mayonnaise: Substitute 1/2 cup pasteurized liquid egg substitute for the egg and egg yolk. Omit the cooking/cooling steps.

If you are experiencing problems with your Cuisinart® product, we suggest that you call our Consumer Service Center at 1-800-726-0190 before returning the product for servicing. Often, our Consumer Service Representatives can help solve the problem without having the product serviced. If servicing is needed, a Representative can confirm whether the product is under warranty and direct you to the nearest service location.

**\* Important:** If the nonconforming product is to be serviced by someone other than Cuisinart's Authorized Service Center, please remind the servicer to call our Consumer Service Center at 1-800-726-0190 to ensure that the problem is properly diagnosed, the product is serviced with the correct parts, and to ensure that the product is still under warranty.
