

Top Traveller Supreme toploader

A spacious top loader with printer compartment and ultimate PAC padding

This spacious top loader guarantees safe transportation of your Notebook.

The lockable notebook compartment with the ultimate PAC (Patented Air Chamber) padding protects your notebook from all sides and especially well from knocks and blows: the notebook is simply inserted from the top.

The extendible all-purpose compartment holds plenty of room for printers, projectors or folders. Pens, business cards, keys and such can be transported in the workstation in the front compartment, where they are kept in order. Mobile phones can be stashed in the concealed side pocket and are always ready-to-hand, and power supply units, cables and shoulder straps find room in the designated pocket.

The removable address tag on the side of the case prevents mix ups in transit, and pleasant transportation is provided by the comfortable carry handle in combination with the Neoprene elastic shoulder strap. With the integrated zip on the back of the case, the trolley fastening can be turned into an additional document compartment.

The modern material mix and the high-class zips underline the special character of this case.

Specification:

Colour:	Black
