

# BacPac Element backpack

*An all purpose notebook backpack with rain protection*

The BacPac Element reliably protects your mobile computing equipment in wind and rain. The special rain cape - located in the front pocket - makes for perfect protection from moisture, by simply pulling it over the backpack.

The notebook is kept safely in the detachable notebook sleeve in the main compartment: depending on the situation, it can be easily removed allowing 'normal' backpack use. Furthermore, the main compartment offers additional storage room for documents, as well as special pockets for glasses, wallets etc. The attached front pockets not only hold the rain cover but also offer plenty of space for other mobile equipment. Mp3 players, mobile phones, and PDAs are safe in the detachable multimedia pocket on the carry strap, and side mesh pockets offer instant access for other small items.

The adjustable and padded shoulder straps, integrated chest strap, and breathable back padding remove any back strain and make for comfortable transportation.

Available in black, olive green, and blue.
